Wood Composite Decking

DESCRIPTION

Wood composite decking has never looked better. CAPTURA composite decking is made in USA and it's hardshell totally encases all board sides with a highly durable skin made from the same incredibly hard plastic as golf balls which is permanently fused to its composite core. The unique composition of the outer layer provides better control over pigmentation, resulting in a denser, richer colour, more variation and a more realistic look. CAPTURA composite decking is impervious to staining making it ideal for food areas such as BBQ decks, restaurants, hotels and cafeterias where frequent spillages occur.

PRODUCT BENEFITS

STAIN & FADE PROOF

CAPTURA composite decking is encased all sides by a unique outer layer which is impervious to stains and fading. Ideal for BBQ or food preparation areas.

SECRET FIXING

CAPTURA composite decking's concealed fix hidden fastener system can be installed in 4 quick and easy steps. Achieve a clean finish with no pre-drilling.

CAP-STOCK FINISH

CAPTURA composite decking's wrap around cap-stock finish is permanently fused to its composite core unlike some alternatives which are a stuck on veneer.

ROT & PEST RESISTANT

CAPTURA composite decking is guaranteed not to rot, split, warp or check. It is highly resistant to damage caused by termites and fungal decay and ideal for use in termite prone areas.

MORE REALISTIC

CAPTURA composite decking's cap-stock finish provides better control over pigmentation, resulting in a denser, richer colour, more variation and a more realistic look.

WATER RESISTANT

CAPTURA composite decking's composite core is encapsulated in a cap-stock finish during the manufacturing process, allowing no opportunity for moisture ingress.

MAINTENANCE FREE

CAPTURA composite decking never requires any oiling, painting or coating over the life of the product. Furthermore it is incredibly easy to clean with the wipe of a mop.

ENVIRONMENTALLY FRIENDLY

CAPTURA composite decking is made from 100% post-consumer recycled material. Nearly half a billion plastic containers are used each year in our manufacturing process.

SIZES & KEY DATA TABLE

Decking Profiles

Specification Code: R*X13524 CAPTURA Secret Fix Decking

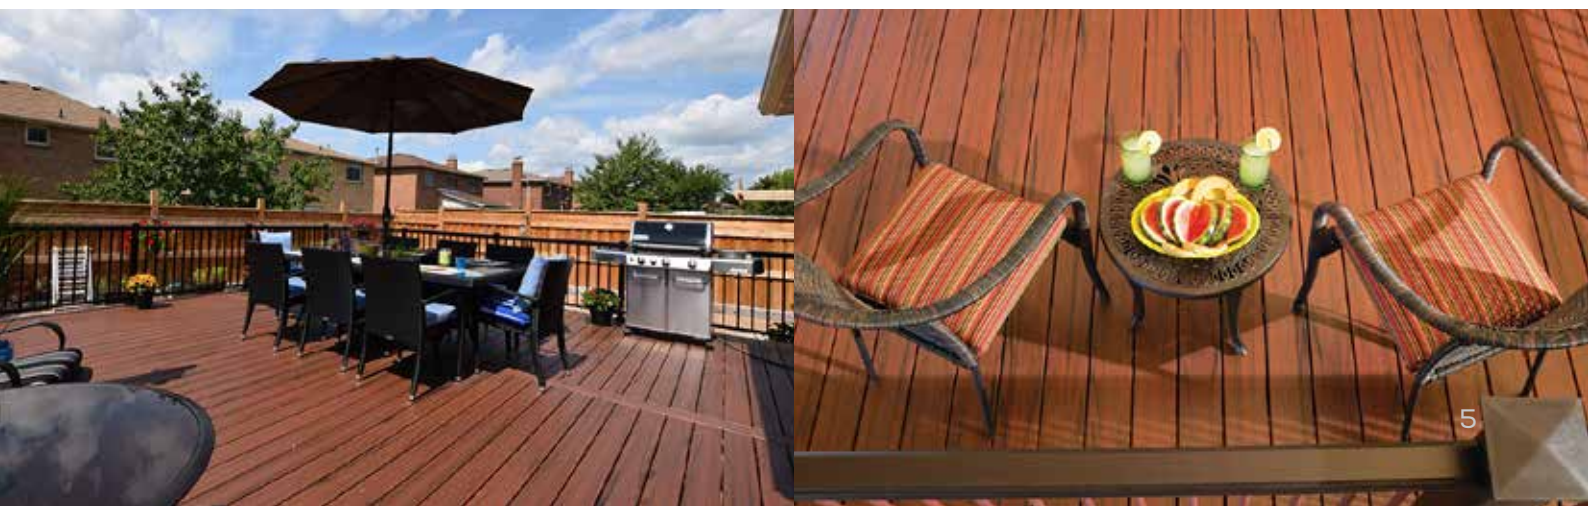

Specification Code: R*P13524 CAPTURA Pencil Round

Product Range

CODE	DESCRIPTION	AVAILABILITY	MOQ
