## Glass-fibre Mineral Core Panel

### Description

M.LOOK A2 glass-fibre mineral core panel is a revolutionary next-generation architectural facade material made in Austria and it offers all the outstanding durability benefits of exterior HPL along with an A2 fire classification. M.LOOK A2 comprises of heavy duty, reinforced glass-fiber, predominantly non-combustible mineral core with a highly weather resistant decorative surface. The decorative surface is characterized above all by high scratch resistance, light fastness, impact resistance, anti-graffiti properties, ease of cleaning and hail resistance.

### Product Benefits

#### A2 FIRE CLASSIFICATION

M.LOOK A2 is suitable for all applications that must adhere to the reaction to fire classification of A2-s1,d0 according to EN 13501-1, combining excellent fire safety with durability and style.

#### UV RESISTANT

M.LOOK A2 glass-fibre mineral core exterior cladding panel is colourfast and offer exceptional resistance to UV light. According to EN ISO 4892-3 they are extremely lightfast with very minimal change.

#### GRAFFITI RESISTANT

M.LOOK A2 glass-fibre mineral core exterior cladding panel has a closed cell surface which prevents inks, paints and other graffiti materials from permanently harming the sheets.

#### MAINTENANCE FREE

M.LOOK A2 glass-fibre mineral core exterior cladding panel has a very high density surface finish preventing accumulation of any dirt build up allowing for virtually no maintenance if any.

#### DOUBLE SIDED COLOUR

As standard all M.LOOK A2 glass-fibre mineral core exterior cladding panel comes with the décor on both sides so that each side can be used. If one side is damaged during install simply flip to the other side.

#### FULL WARRANTY

M.LOOK A2 glass-fibre mineral core exterior cladding panel is backed up with a 10 year warranty. However the life expectancy exceeds 33 years and has been proven to outlast many alternatives.

#### EXTREME DURABILITY

M.LOOK A2 glass-fibre mineral core exterior cladding panel is extremely durable even in the harshest external environments. A project installed in 1978 which was tested 33 years later had little change.

#### LARGE COLOUR RANGE

M.LOOK A2 glass-fibre mineral core exterior cladding panel is available in a huge range of decors from solid, metallic, timber, metal, concrete, and graphic print options. The limit is your imagination.
