NATURION

Non-combustible Natural Finish Panel

Description

NATURION non-combustible natural-finish panel is a revolutionary and innovative new facade material developed with architects and designers in mind. Due to Australia's strict fire compliance standards, it has become increasingly difficult to use natural timber cladding panels whilst meeting non-combustibility requirements. NATURION solves this problem by providing the rich natural warmth of timber, stone and rusted metal panels while at the same time being; light-weight, highly durable, prefinished and most importantly Deemed-to-Satisfy non-combustible in accordance with NCC 2022, Clause C2D10(6)(d).

Product Benefits

NON-COMBUSTIBLE

Unlike almost all other timber looking panels such as plywood and high pressure laminate, NATURION natural-finish panels are Deemed-to-Satisfy non-combustible in accordance with NCC 2022, Clause C2D10(6)(d).

AUTHENTIC AESTHETICS

Available in an inspiring range of natural timber, stone and rusted metal finishes, NATURION offers beautiful natural aesthetics without compromising on durability, low maintenance or fire compliance.

EASY TO CUT & INSTALL

NATURION non-combustible natural-finish panel is easily cut to size and installed onsite minimising lengthy lead times between site measure, production and delivery of pre-finished panels.

HIGH DURABILITY

NATURION non-combustible natural-finish panel is a highly durable material offering exceptional impact, abrasion and graffiti resistance and making it ideal for both public and private sector projects.

ENVIRONMENTALLY FRIENDLY

Manufactured in Europe to strict environmental standards, NATURION has an A1+ classification for volatile substance emissions and is made of organic natural materials for long-term sustainability.

15 YEAR WARRANTY

With a factory applied impervious matt-finish, NATURION provides outstanding resistance to UV radiation, extreme temperatures, fungi, mould, staining etc and it is backed up with a 15yr warranty.

MAINTENANCE FREE

NATURION non-combustible natural-finish panel is a truly maintenance free material with no re-sealing, painting or ongoing maintenance ever required during install or anytime thereafter.

PROPRIETARY SYSTEM

NATURION non-combustible natural-finish panel is installed on a proprietary ventilated sub-frame facade system using either visible colour-matched fasteners or a concealed secret-fix system.

Product Range

NATURION Timber Decors

NATURION Material Decors

NATURION Stone Decors
