## Prefinished Solid Aluminium Panel

### Description

Designed to compliment our ULTRACORE non-combustible core panel, ULTRASURE completes our range of BCA compliant, Deemed-to-Satisfy non-combustible aluminium cladding solutions. The 3mm solid aluminium cladding panels offer very high impact resistance and can be curved, rolled or perforated. ULTRASURE features the same factory applied PVDF coating system widely renowned for its superior durability and finish quality. Unlike traditional powder coating, prefinished PVDF panels do not require fabrication prior to coating greatly reducing lead-times and costs.

### Product Benefits

#### FINISHED BEFORE FABRICATION

Unlike traditional powder coated panels, ULTRASURE is prefinished with factory applied PVDF coating and a protective peel-off film before fabrication into cladding panels providing many practical advantages.

#### COLOUR-MATCHED FIXINGS

BLUECHIP does not endorse installing any brand of SOLID aluminium panels with the v-grooved cassette system - it is flawed methodology which will likely lead to future cracking and water ingress issues.

#### AS 1530.1 NON-COMBUSTIBLE

ULTRASURE is one of the few aluminium cladding panel solutions that is Deemed-to-Satisfy non-combustible when tested to AS 1530.1 and AS 1530.3 as per the requirements of NCC 2019 Clause C1.9(e)(v).

#### PVDF PAINT SYSTEM

ULTRASURE 3mm aluminium panel only uses the highly recognised PVDF KYNAR 500 or FEVE paints known for their high durability, providing the optimum resistance to weather and industrial pollution.

#### NCC 2019 COMPLIANCE

ULTRASURE solid aluminium panel is Deemed-to-Satisfy non-combustible as per NCC 2019 Clause C1.9(e)(v) making it compliant for use as external cladding on any project of types A, B & C construction.

#### CURVE, ROLL OR PERFORATE

The ULTRASURE 3mm aluminium panel offers excellent design versatility as it can be made into panels of almost any shape and size as well as being suitable for curved panels, rolling and perforating.

#### UNLIMITED CUSTOM COLOURS

ULTRASURE 3mm solid aluminium panel utilises the same PVDF coating as ULTRABOND FR and ULTRACORE so it is available in the same extensive colour range and custom colours. MOQ's apply.

#### MANUFACTURER'S WARRANTY

ULTRASURE 3mm aluminium panel coating system has a long track record of consistency, reliability and quality allowing us to offer up to 15 year's warranty when installed by a licensed installer.
