RITEDECK

Ultimate Value Composite Decking

Description

RITEDECK really is the ultimate value composite decking product and like many traditional wood plastic composite materials (WPC's), it has all the attributes of timber along with many added advantages such as low maintenance and greater long-term durability. That however, is where the comparison ends. RITEDECK's outstanding value proposition comes from a unique combination of the latest USA composite technologies, an impervious surface capping with unrivalled scratch, stain and fade resistance, a P5 slip rating and best of all, import direct supply to guarantee ultimate value.

Product Benefits

ULTIMATE VALUE

Bang-for-buck and kilo-for-kilo, RITEDECK decking is unrivalled in the market because it combines the world's best technology and materials from the USA with an importer direct supply chain for ultimate value.

P5 SLIP RESISTANCE

RITEDECK ultimate value composite decking achieves the highest possible slip rating of P5 when tested to the latest Australian standard AS 4586 meaning it is compliant for use in all applications.

COST EFFECTIVE SYSTEM

A combination of the latest USA composite technologies and the best quality materials mean that RITEDECK is much lighter per m² than comparable products helping to drive superior value engineering outcomes.

DIMENSIONAL STABILITY

Using patented extrusion technology, every strand of wood fibre in RITEDECK decking boards is encased in high-density polyethylene, for minimal movement and superior protection against UV and moisture.

LONG-TERM VALUE

RITEDECK ultimate value composite decking does not require any surface finish at the time of installation and further to this it never requires any oiling, painting or coating over the life of the product.

ROT & PEST RESISTANT

RITEDECK ultimate value composite decking is guaranteed not to rot, split, warp or check. It is highly resistant to damage caused by termites and fungal decay and ideal for use in termite prone areas.

SECRET FIX SYSTEM

RITEDECK ultimate value composite decking's preloaded CAMO secret fix system can be installed in 4 quick and easy steps to achieve a clean finish with no pre-drilling and no visible screws.

PIONEERING USA TECHNOLOGY

RITEDECK composite decking has been developed by Universal Forest Products (UFPI), a listed global company headquartered in USA which has been producing industry leading composite materials for over 50 years.
