## DECKING.

BLUECHIP specialises in the manufacture and supply of exterior architectural products from the structure out. Our range includes; all types of cladding, decking materials, engineered fixing systems and insulation products. BLUECHIP has now supplied more than 3,000,000m<sup>2</sup> of materials to Australian projects since 2003.

# TRAXION

## Mineral-Fibre Composite Decking

### Description

TRAXION mineral-fibre decking is a giant leap forward in wood-alternative decking. Made in the USA, it has the industry's best strength-to-weight ratio, is incredibly stable and doesn't absorb moisture. The durable polymer cap stock won't stain or fade and it provides the highest level slip resistance when tested to Australian standards. The patented technology creates a fibre-like structure inside the material, similar to wood, giving it unmatched strength and the lightweight boards are easy-to-handle on the job site. Quite simply, TRAXION is the best decking material on the market today.

### Product Benefits

#### EXCELLENT SLIP RESISTANCE

TRAXION mineral-fibre decking achieves the highest possible slip rating of P5 when tested to the latest Australian standard AS 4586 meaning it is compliant for use in all applications.

#### HIGH STRENGTH TO WEIGHT RATIO

Kilo-for-kilo, TRAXION mineral-fibre decking delivers unprecedented strength and much less dense compared to virtually all other composite construction materials

#### MAINTENANCE FREE

TRAXION mineral-fibre decking contains no cellulose, has no open porosity structure, and is not degraded by common mould enzymes so simply wipe clean at your leisure.

#### LOW THERMAL EXPANSION

TRAXION mineral-fibre decking has a far lower rate of thermal expansion than other composites. This dimensional stability is a huge advantage in maintaining performance and appearance.

#### INDUSTRY LEADING WARRANTY

TRAXION mineral-fibre decking comes with the industry's leading warranty offering a 25-year Structural and a 25-year Stain & Fade guarantee backed up by the manufacturer in USA.

#### NO MOISTURE ABSORPTION

Unlike many other composites, TRAXION mineral-fibre decking absorbs virtually no moisture; immersion testing shows maximum moisture absorption values of less than 0.2%.

#### EXTREME STRENGTH

TRAXION mineral-fibre decking has exceptional strength due to its oriented internal fibre structure that is a remarkable replication of wood's internal structure.

#### RESISTANCE TO EVERYTHING

TRAXION mineral-fibre decking is resistant to almost everything including UV, chalking, rot, leaching, cracking, denting, scratching, splintering and insects.

# RITEDECK

## Ultimate Value Composite Decking

### Description

RITEDECK really is the ultimate value composite decking product and like many traditional wood plastic composite materials (WPC's), it has all the attributes of timber along with many added advantages such as low maintenance and greater long-term durability. That however, is where the comparison ends. RITEDECK's outstanding value proposition comes from a unique combination of the latest USA composite technologies, an impervious surface capping with unrivalled scratch, stain and fade resistance, a P5 slip rating and best of all, import direct supply to guarantee ultimate value.

### Product Benefits

#### ULTIMATE VALUE

Bang-for-buck and kilo-for-kilo, RITEDECK decking is unrivalled in the market because it combines the world's best technology and materials from the USA with an importer direct supply chain for ultimate value.

#### P5 SLIP RESISTANCE

RITEDECK ultimate value composite decking achieves the highest possible slip rating of P5 when tested to the latest Australian standard AS 4586 meaning it is compliant for use in all applications.

#### COST EFFECTIVE SYSTEM

A combination of the latest USA composite technologies and the best quality materials mean that RITEDECK is much lighter per M2 than comparable products helping to drive superior value engineering outcomes.

#### DIMENSIONAL STABILITY

Using patented Strandex technology, every strand of wood fibre in RITEDECK decking boards is encased in high-density polyethylene, for minimal movement and superior protection against UV and moisture.

#### LONG-TERM VALUE

RITEDECK ultimate value composite decking does not require any surface finish at the time of installation and further to this it never requires any oiling, painting or coating over the life of the product.

#### ROT & PEST RESISTANT

RITEDECK ultimate value composite decking is guaranteed not to rot, split, warp or check. It is highly resistant to damage caused by termites and fungal decay and ideal for use in termite prone areas.

#### SECRET FIX SYSTEM

RITEDECK ultimate value composite decking's preloaded CAMO secret fix system can be installed in 4 quick and easy steps to achieve a clean finish with no pre-drilling and no visible screws.

#### 25 YEAR WARRANTY

Backed by the manufacturer in USA, the RITEDECK composite decking comes with a 25 year limited warranty which guarantees quality and peace of mind for the life or re-sale of your investment.
